

Mustafa Melih Dağ

STUDENT
INDUSTRIAL ENGINEERING

About me

I am a sophomore at Hacettepe University in Industrial Engineering. After studying dentistry for 2 years, I was sure that the profession suitable for me was industrial engineering and I switched my department. Currently, I am looking for internship offers in production processes, but also I am open to all offers to improve myself. If there is any program or programming language I need to learn on this, I can learn it.

PROGRAMMING SKILLS

AUTOCAD 2023

 %50
